To Whom It May Concern:

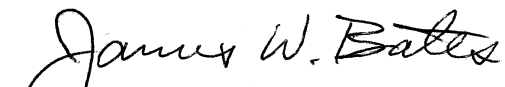

Camp Westminster on Higgins Lake affirms its support of Camp Greenwood and its ministry to children, youth, and adults. Since the start of 2016, these two charitable organizations have maintained a covenant agreement to work in partnership to achieve their respective missions related to making new disciples of those who participate in their programs. Camp Westminster's goals and theological underpinnings coincide closely with those of Camp Greenwood strengthening the good that both entities bring about in so many lives.

Because of this close partnership, it is the conviction of Camp Westminster on Higgins Lake that the future for both camps shines brightly with many opportunities to anticipate for coordination and sharing of programs and facilities.

There is much to be glad about with this bonding between these two veterans in the faith.

In Service to the Lord,
